

Bonita Springs, FL (Newsworthy.ai) Wednesday Jan 17, 2024 @ 12:30 PM Eastern —

[Ketamine Therapy](#), a groundbreaking form of psychedelic therapy, is now available in Bonita Springs, Naples, Fort Myers, Marco Island, and Estero. FDA-approved since the 1970s as an anesthetic, this therapy is gaining recognition as a transformative treatment for mental health conditions such as [depression](#), anxiety, PTSD, addiction, and more.

Unlike traditional therapies, Ketamine Therapy works by physically altering neural pathways in the brain, creating new connections, and increasing dopamine production. Driven by these changes in the brain, patients experience a range of benefits, including reduced [anxiety](#), improved mood, decreased symptoms of [PTSD](#), and an overall improvement in their quality of life.

The compassionate and supportive approach of Ketamine Therapy sets it apart from other treatment options. Upon scheduling an appointment, patients collaborate with our experienced medical staff to establish goals and develop a personalized treatment plan tailored to their unique needs. Whether administered through intravenous infusion or intramuscular injection, patients can expect a safe and controlled environment throughout their therapy sessions.

The positive impact of [Ketamine Therapy](#) is resoundingly clear, with a significant decrease in suicidal thoughts reported by many patients. Those struggling with mental health conditions who have not found success with other treatments are now finding hope with Ketamine Therapy.
