[RChilli](#) announces another addition of language to strengthen its multilingual support. After adding Vietnamese, RChilli can now also parse in Croatian. This new milestone will help the company fulfill its commitment to delivering AI-powered innovative solutions and meeting its customers' linguistic requirements.

After being announced as the default parsing solution in Oracle Recruiting Booster, RChilli's multilingual parsing solution provides Croatian language support to Oracle users too. This enables all users to parse resumes efficiently in Croatian.

The company has been in business since 2010 and is empowering businesses to extract resume data seamlessly by using its resume parser. With the addition of Croatian to its list of languages supported, RChilli can now help companies in Croatia-speaking countries hire the right talent by getting structured resume data.

Paramdeep Singh, Head of Marketing at RChilli, said, "One of the main objectives of RChilli is to help companies in every nook and corner of the world hire the right talent. And this can be done by expanding our multilingual capabilities. We already parse in 40+ languages*, ensuring that our customers get accurate information of resumes such as education, qualification, skills, work experience, etc."

RChilli has a global clientele that trusts the company for its amazing 24x7 customer support, accuracy, and seamless integration.
