

San Ramon, CA (Newsworthy.ai) Wednesday Jun 28, 2023 @ 12:00 PM Pacific —

[RChilli](#) is thrilled to announce the addition of Hungarian to its growing list of supported languages. This latest language addition further strengthens RChilli's commitment to providing comprehensive and inclusive solutions to its global clientele.

RChilli's advanced parsing technology enables organizations to extract and analyze critical information from resumes and job applications seamlessly. By incorporating Hungarian into its language repertoire, RChilli empowers businesses operating in Hungary and those dealing with Hungarian-speaking candidates to effortlessly process and leverage candidate data with accuracy and efficiency.

Hungarian, one of the official languages of Hungary and spoken by millions worldwide, is known for its unique grammar and vocabulary. RChilli's language experts have meticulously trained the system to comprehend the intricacies of Hungarian, ensuring precise extraction of information, including candidate contact details, education, skills, work experience, and more. With this enhanced capability, RChilli customers can now expand their reach and effectively connect with a broader talent pool in Hungary and Hungarian-speaking regions.

"Adding Hungarian to our supported languages is a significant milestone for RChilli. We are committed to providing our customers with cutting-edge solutions that cater to diverse linguistic requirements," said Paramdeep Singh, Head-Marketing at RChilli. "By embracing Hungarian, we empower organizations to seamlessly process candidate data and make informed decisions, thereby fostering better recruitment practices and enhancing their talent acquisition strategies."

RChilli's multilingual resume parsing, matching, and data enrichment solutions are trusted by businesses worldwide to streamline their recruitment processes, improve candidate experience, and enhance overall efficiency. With the inclusion of Hungarian, RChilli expands its linguistic capabilities to over 40 languages, reinforcing its position as a global leader in the HR technology space.
