San Ramon, CA (Newsworthy.ai) Thursday Aug 31, 2023 @ 12:00 PM Pacific —

RChilli, a member of Oracle Partner Network (OPN) & the parsing solution in Oracle Recruiting Booster, announced that it is exhibiting at Oracle CloudWorld in Las Vegas from September 18-21, 2023. RChilli will showcase its parsing solution engineered to enhance the candidate experience and boost the candidate conversion rate for Oracle Fusion Cloud Human Capital Management (HCM) and Oracle PeopleSoft users.

Powered by deep learning algorithms, this state-of-the-art parser introduces intelligent automation, significantly streamlining the recruitment process. Recruiters can benefit from precise and efficiently parsed candidate data, ensuring accuracy and efficiency.

RChilli team's dedication to delivering sophisticated recruitment solution plugins to Oracle HCM and PeopleSoft users is evident in the array of innovative features they are cataloging this year. Among these features are comprehensive data migration, reprocessing, and turn-key solution RChilli Candidate Recharge (RCR) that aims to supercharge the hiring process, empower candidates, and redefine talent acquisition.

This year's agenda also includes a focused discussion on how RChilli's Oracle parsing solution contributes to fostering diversity, exclusivity, and inclusion (DEI) in hiring practices, and promoting equitable recruitment practices.

"We are excited to be back at Oracle CloudWorld this year with new functionalities. We see it as an opportunity to share the strategies that will help Oracle users improve their hiring approach and quality," said Joshua Adams, Director of ERP Operations at RChilli. "Most importantly, it's a motivation to be a part of the community steered by Oracle experts who, like us, want the companies to meet their aspirational technological goals."

Joshua further said, "Becoming the parsing solution in Oracle Recruiting Booster has been a great motivation for us to better the already diverse features within our parsing solution. This event will be our podium to build a network, demonstrate why we are a leading resume parsing solution for Oracle HCM and Peoplesoft users, and share what sets us apart from our contemporaries."
