

Houston, TX USA (Newsworthy.ai) Tuesday Jul 30, 2024 @ 7:00 AM Central —

[SalesNexus](#), a leading customer relationship management (CRM) and marketing automation platform has recently unveiled a free service for marketers and sales teams. The new service allows users to effortlessly find missing contact information for any email list uploaded to the platform.

“Salespeople waste hours every week researching contacts and companies just to get a phone number to call,” said Craig Klein, CEO of SalesNexus. “Success for marketers and salespeople begins with accurate information so you can reach out to customers.”

By simply uploading any email list into the SalesNexus platform, users instantly get a comprehensive array of contact details. This includes phone numbers, mobile numbers, mailing addresses, company information, and even links to social profiles such as LinkedIn and Twitter. The service provides users with a holistic view of their contacts, enabling them to enhance their communication strategies and foster stronger relationships with customers and prospects.

“Our goal is to empower businesses with the tools they need to succeed in today’s competitive landscape,” added Scott. “By offering this service as part of our free trial, we hope to showcase the value it can bring to our users and help them unlock new opportunities for growth.”

One of the key advantages of SalesNexus’ new offering is its unlimited usage for a period of 30 days when users start a free trial of the platform. This gives businesses the opportunity to experience the full capabilities of the service without any limitations, allowing them to assess its effectiveness in enhancing their contact management processes.

“We believe that providing access to this feature as part of our free trial will enable users to experience firsthand the trans-formative impact it can have on their business operations,” noted Klein. “At SalesNexus, we are committed to continually innovating and delivering solutions that drive engagement and sales for our customers.”

Businesses looking to streamline their contact management and uncover valuable insights from their email lists can now leverage SalesNexus’ new service to automatically find missing contact information. With its user-friendly interface and comprehensive data coverage, the platform is poised to become an indispensable tool for organizations seeking to optimize their customer engagement strategies.
